

LIQUID BULK SHIPPING

SHIPPING: LNG, CNG & Other Gas-Based Fuels

One of the largest cargoes transported through ships is petroleum goods and its byproducts, in terms of volume and gross revenue, includes crude oil, volatile fuels, petroleum, LNG, CNG, and the various derivatives.

Skylink network provides dedicated support for tanker cargo handling, our operations are organized with our principals and agents network with the world's largest oil majors, along with smaller players focused on liquid commodities i.e., crude oil, industry feedstock, gas cargo and other liquid bulk.

Our extensive experience in handling such a large array of liquid cargo means that we are fully equipped to handle any job, no matter the size or scope, whilst our strict adherence to world-leading practices and compliance values provides a certified level of professionalism and care.
